Emergency Numbers

Dial 911 for all emergency services
Aberdeen Police Department: (605) 626-7911
Aberdeen Fire Department: (605) 626-7048
Aberdeen Ambulance: (605) 626-7045
Avera St. Luke's Hospital: (605) 622-5100

Travel Directions

Entering Aberdeen from the west; US HWY 12 East (Ipswich, SD)

From junction of US HWY 12 and US HWY 281...

Follow US HWY 12 (turns into 6th Avenue SW) east to S. Main Street (1.4 miles, six (6) traffic lights)

Turn north (left) on S. Main Street (one-way street going north)

See Directions "From Main Street"

Entering Aberdeen from the east; US HWY 12 West (Groton, SD)

From Aberdeen Regional Airport...

Follow US HWY 12 (turns into 6th Avenue SE) west to S. Main Street (3.3 miles, eleven (11) traffic lights)

Turn north (right) on S. Main Street (one-way street going north)

See Directions "From Main Street"

Entering Aberdeen from the north; US HWY 281 South (Ellendale, ND)

From Wylie Park (on west side of highway)...

Follow US HWY 281 south (turns into 2nd Street) to 6th Avenue SW (US HWY 12) (2.8 miles, five (5) traffic lights)

NOTE: Do NOT take the US HWY 281 bypass

Turn east (left) on 6th Avenue SW

Go two blocks east on 6th Avenue SW to S. Main Street (.1 miles, two (2) traffic lights)

Turn north (left) on S. Main Street (one-way street going north)

See Directions "From Main Street"

Entering Aberdeen from the south; US HWY 281 North (Redfield, SD)

Follow US HWY 281 north to 6th Avenue SW (US HWY 12) (Traffic light)

Turn east (right) on 6th Avenue SW

Follow 6th Avenue SW east to S. Main Street (1.4 miles, five (5) traffic lights)

Turn north (left) on S. Main Street (one-way street going north)

See Directions "From Main Street"

From Main Street

Go one block north on S. Main Street to 5th Avenue SE.

Continue north on S. Main to Capitol Theatre main entrance (415 S. Main) or Aberdeen Community Theatre office (417 S. Main)

OR

Turn east (right) on 5th Avenue SE for ½ block to alley driveway on north (left) side of street

Turn north (left) in alley; continue to large, white overhead garage door on the left; rear entrance is double glass doors immediately north of overhead garage door

MANAGEMENT

Production Room

There is no specific area dedicated as a Production Room for visiting companies. Arrangements to use Aberdeen Community Theatre office space, phones, fax machine or computers should be made with ACT staff.

Green Room

The Green Room is located in the northeast wing of the facility. It is beyond the Stage Right Wing and Scene Shop. It is adjacent to the Dressing and Makeup/Wardrobe Rooms. There is one (1) 9" step up into the Scene Shop, which is on the same level as the Stage. It is equipped with refrigerator, stove, dishwasher and microwave.

Rehearsal Areas

There are two (2) rehearsal areas available in addition to the Stage. Arrangements must be made in advance to schedule their use:

Young People's Theatre Classroom

Located adjacent to Green Room in northeast wing of the facility.
41'-0" L x 20'-5" W

Theatre B

Located in northwest wing of the facility. Not available between 6-10 p.m., nightly.
25'-0" L x 20'-2" W

Stage Manager's Stations

There are no dedicated Stage Manager's positions. Wired headset intercom stations can be placed in various locations on stage, backstage or in the Control Booths via microphone jacks and cables. The most typical stage manager position for Aberdeen Community Theatre has been in the Stage Right Wing by the large overhead door leading into the Scene Shop.

Crews

Other than ACT staff, Aberdeen Community Theatre does not have any stage crew personnel. ACT will gladly assist visiting companies in locating local volunteer crew, but note that there is not a large pool of professionally trained crew members available in the local area.

Accessibility

The Stage is wheelchair accessible only via a ramp 8'-0" L x 6'-4" W x 9" H located in Scene Shop. Dressing Room area rest room appliances are fitted for accessibility.

Policies

House opens a minimum of thirty (30) minutes prior to starting time.

Normal starting time is 7:30 p.m. or 2:30 p.m. for matinees.

Days with two (2) performances, normal starting time is 2:30 p.m. for matinees and 7:30 p.m. for evenings.

Food and drinks are not allowed in Capitol Theatre auditorium.

South Dakota state law prohibits smoking within the building.

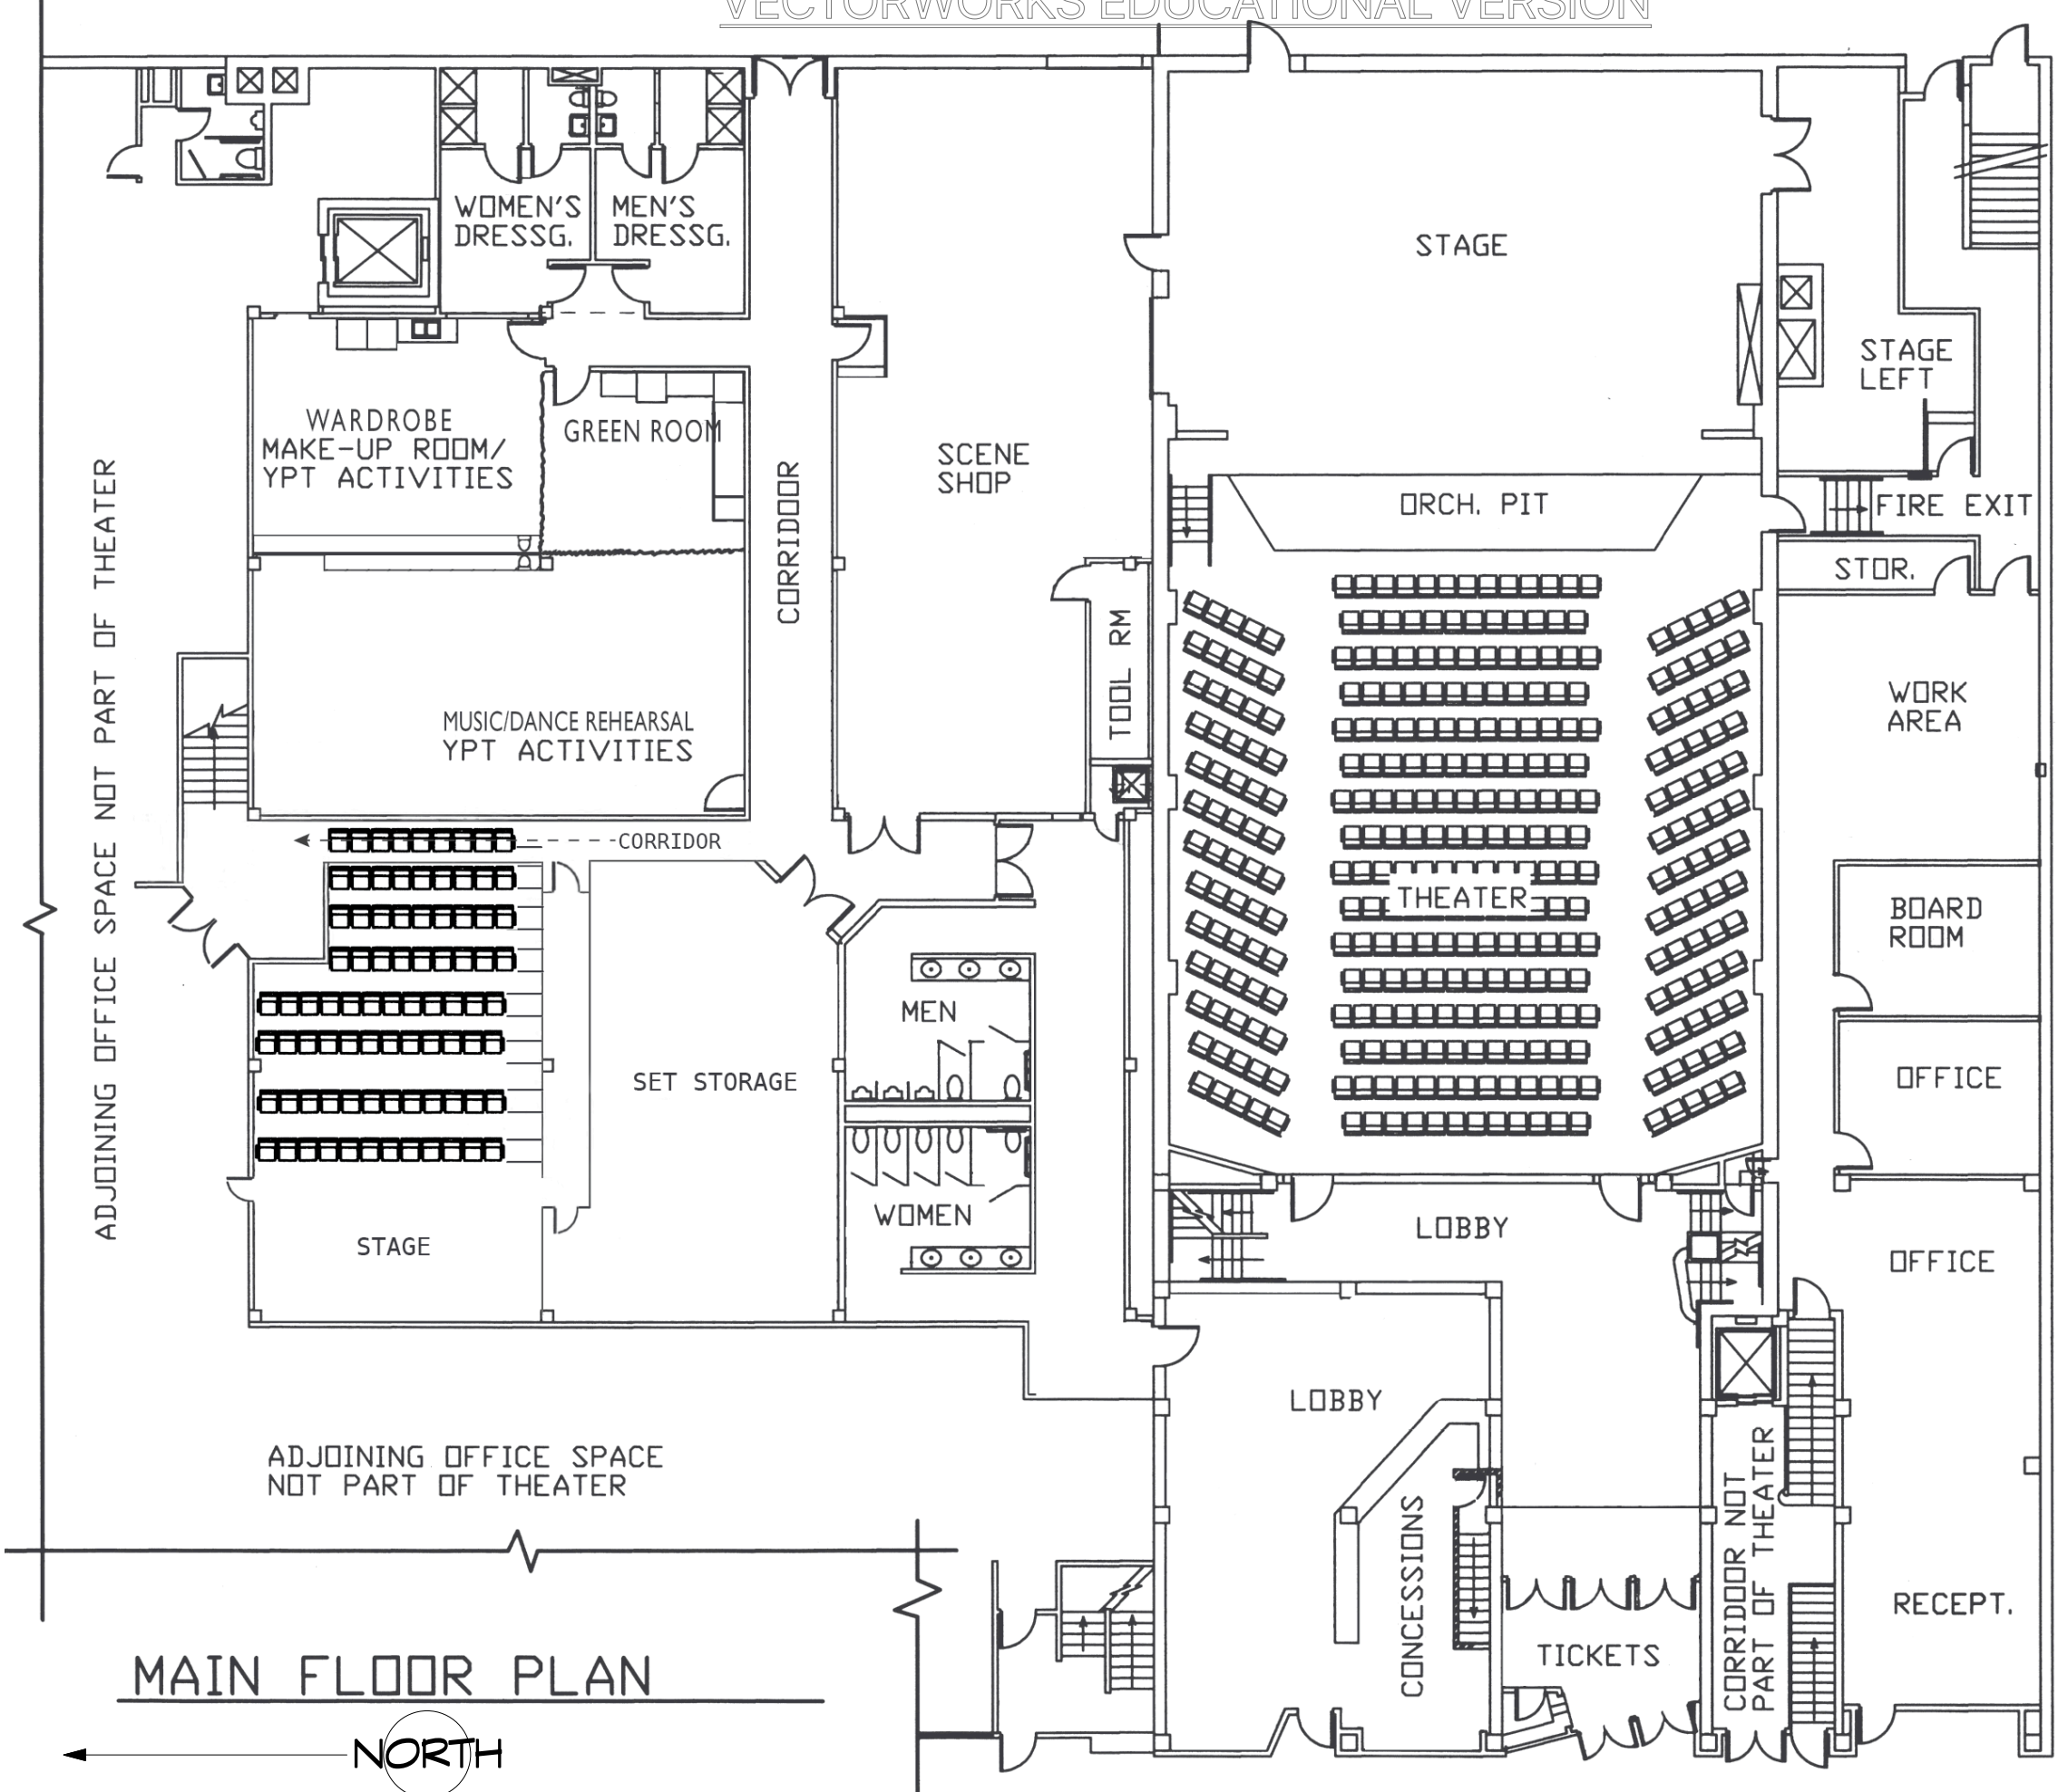

Load-In Area

The Load-In Area is accessible via an 8'-0" x 8'-0" overhead door into the Scene Shop. The diagonal dimension is 11'-3/4". The door is accessible via alley entrance on the east side of the facility. The alley is one-way going north. Vehicles typically unload parallel to the overhead door. The landing to the door is 1'-4" above parking lot level. There is no ramp leading to this landing.

Drawings

All Drawings referenced in this document may be also be found as downloadable PDF files on Aberdeen Community Theatre's website: www.AberdeenCommunityTheatre.com .

MAIN FLOOR PLAN

CARPENTRY

Seating

(446) seats (326 main floor, 120 balcony). Can add four (4) folding chairs in wheelchair-accessible positions if not in use. Can also add 20 additional folding-chair seating on balcony risers.

Stage Dimensions

REFER TO CAPITOL THEATRE STAGE GROUNDPLAN, PAGES 13-14

REFER TO CAPITOL THEATRE STAGE ELEVATION, PAGE 15

REFER TO CAPITOL THEATRE STAGE SECTION, PAGE 16

NOTE: The Capitol Theatre was built in 1926 as a vaudeville/movie house. When it was acquired by the Aberdeen Community Theatre, extensive renovations took place, including extending the original stage. However, the original Proscenium Arch still remains, as it is a major structural element for the rest of the building. Please note its location in the information below.

Stage

Proscenium Arch: 40'-0" W x 20'-0" H

Old Proscenium Arch: 26'-7" W x 20'-0" H

Depth of Orchestra Pit: 6'-8¼"

Upstage Edge of Orchestra Pit (Pit Line) to front of Proscenium Arch (Apron): 2'-11"

Upstage Edge of Orchestra Pit (Pit Line) to front of Old Proscenium Arch: 17'-7½"

Front of Old Proscenium Arch to Back Wall: 15'-1"

Total Stage depth: 39'-4¾"

Wing Space

Stage Right

5'-0" from Proscenium Arch to wall/doors

Upstage Right (behind Old Proscenium Arch)

9'-1½" from Old Proscenium Arch to Lock Rail

Stage Left

2'-3" from Proscenium Arch to Lock Rail

Upstage Left (behind Old Proscenium Arch)

11'-7" from Old Proscenium Arch to wall/doors

Grid Height

Downstage of Old Proscenium Arch

28'-10½" from Stage to ceiling deck.

Approximate effective flying height is 25'-2"

NOTE: Line Set 3 effective flying height is 24'-5"

Upstage of Old Proscenium Arch (Flyloft)

47'-5" from Stage to ceiling deck. 41'-1" from Stage to top of Grid.

Approximate effective flying height is 36'-3"

Orchestra Pit

The Orchestra Pit is 6'-8¼" deep, Upstage to Downstage. It is 40'-3¾" wide at the Upstage end and 33'-0½" wide at the Downstage end. The pit is 7'-3" below Stage level and 4'-0" below House floor level. Actual floor space in the Pit measures 30'-8" L x 8'-7" W. The Pit cover is made of eight (8) removable sections of floor. These sections are fabricated with ¾" plywood over a ¾" plywood sub-floor and four (4) 2" x 6" stringers. The eight (8) middle sections are 4'-0" W x 6'-7½" L. The two (2) end sections are triangular in shape.

Stage Height

3'-3" above House floor level

Stage Floor

Upstage of the Old Proscenium Arch, the Stage floor is ¾" plywood over ¾" plywood sub-floor over 2" x 8" sleepers over the original stage floor. Downstage of the Old Proscenium Arch, the Stage floor is ¾" plywood over ¾" plywood sub-floor over 2" x 8" joists and stud walls. It is painted satin black. The floor may not be screwed, drilled or nailed into.

Traps

Six (6) traps, 4'-0" L x 4'-0" W. Two (2) located mid-Stage Right, two (2) located mid-Stage Center and two (2) located mid-Stage Left. All Traps are Downstage of the Old Proscenium Arch. The Center Traps are 6'-0" below Stage level. The Stage Right and Stage Left Traps are 3'-7½" below Stage level. Each Trap cover is fabricated with ¾" plywood over a ¼" plywood sub-floor and 2"x4" frame, latched into place. They are the same color as the Stage floor. They may not be screwed, drilled or nailed into.

Soft Goods (House Draperies)

House Curtain

Valance

(1) 40'-0" W x 4'-0" H, black 25 oz. Velour, 50% fullness, dead hung

Main Act Curtain

(2) 24'-0" W x 20'-0" H panels, black 25 oz. Velour, 50% fullness, dead hung on traveler track, draw from Stage Right Wing by Proscenium Arch

Legs

(2) 10'-0" W x 20'-0" H, black 25 oz. Velour, 50% fullness (1st Legs, dead hung on traveler track)

LIGHTING

Power

120/208V, 3Ø 400A
120/208V, 3Ø 200A

System Layout

REFER TO CAPITOL THEATRE LIGHT SYSTEM LAYOUT, PAGE 23

Dimmers

(144) 2.4kW ETC Sensor dimmers directly wired to circuits 1-144, DMX 512

Control Locations

Control Booth located behind the Balcony

There are two (2) additional DMX input jacks; located in the back wall of House Left and on the front of the Stage, Stage Right.

There are three (3) additional Remote Focus Unit (RFU) input jacks; located in the back wall of House Left, on the front of the Stage, Stage Right and in the catwalk just before the entrance to the 1st Cove.

There is one (1) additional DMX output jack in the basement, next to the Dimmer Rack.

Control Consoles

NOTE: All controls use DMX-512 protocol.

Main Console

- (1) ETC Element 500
 Located in Control Booth
- (1) ETC Express 48/96
 Auxiliary/backup console

Auxiliary Control

- (1) Apple iPad with ETC iRFR, interfaces with ETC Element Console
- (1) ETC Remote Focus Unit (RFU), interfaces with ETC Express Console only
- (2) 12-channel DMX Station (located in Stage Manager's position Stage Right; back wall House Left)
- (1) 4-channel DMX Station (located in Control Booth)

NOTE: DMX Stations are designated architectural units for limited compositions, generic facility needs and emergency applications.

House Lights

Chandeliers

(6) dimmable fluorescent chandeliers on independent lifts. Lift controls are located in the Control Booth. They are wired into Dimmers 138, 140, 141. They are controlled via Control Console, DMX Stations or RFU.

Fixed Lights

Balcony

(2) lights mounted in back of Balcony, wired into Dimmer 140, the same dimmer as the rear chandeliers. They are controlled via Control Console, DMX Stations, iRFR or RFU.

Under Balcony

(4) lights under Balcony, wired into Dimmer 139. They are controlled via Control Console, DMX Stations, iRFR or RFU.

Walls

(16) 5-lamp (25W each) wall sconces, wired to Dimmer 137. They are controlled via Control Console, DMX Stations, iRFR or RFU.

Aisle Lights

Controlled via light switches located in Control Booth or at the back wall of House Left.

Stage Work Lights

(2) 20A circuits, NEMA 5-20R (Edison style) receptacles. Wired into the raceways on each of the first two (2) Stage Electrics.

(4) 20A circuits, NEMA 5-20R (Edison style) receptacles. Mounted behind each pillar of Old Proscenium Arch, both low and high.

Circuits

(136) 20A circuits, NEMA 5-20R (Edison style) receptacles. Two (2) Stage Electrics with raceways, circuits on 24" centers. The 3rd and 4th Electrics (located upstage of Old Proscenium Arch) are moveable to any available Line Set, as the circuits are located on Loading Gallery Stage Right.

Independent power for LED fixtures are located on the Loading Gallery Stage Right, and on each pillar of Old Proscenium Arch, both low and high.

Circuit Chart

Position	Circuit No.	Number of Circuits	Number of Receptacles
2 nd Cove (FOH)	1 - 22	22	44
1 st Cove (FOH)	23 - 44	22	44
Back Wall of Balcony (FOH) (outside Control Booth)	45 - 48	4	8
Balcony Left Rail (FOH)	49 - 52	4	8
Balcony Right Rail (FOH)	53 - 56	4	8
1 st Electric	57 - 76	20	20
2 nd Electric	77 - 96	20	20
3 rd Electric (boxes located on Fly Gallery Stage Right)	97 - 112	16	32
Stage Right behind Proscenium Arch	113 - 116	4	8
Stage Left behind Proscenium Arch	117 - 120	4	8
Stage Right behind Old Proscenium Arch	121 - 124	4	8
Stage Left behind Old Proscenium Arch	125 - 128	4	8
Back Wall Stage Right	129 - 132	4	8
Back Wall Stage Left	133 - 136	4	8

DMX Distribution

(1) Swisson XSP-5R2 DMX splitter

(1) DMX 5-pin input

(1) DMX 5-pin thru-put

(3) DMX 5-pin output

(2) DMX 3-pin output

Line termination on all outputs

DMX line running from Dimmer Rack to Swisson XSP-5R2 DMX Splitter, located in Loading Gallery Stage Right.

DMX lines running from to Line 2 (1st Electric), Line 6 (1A Electric), Line 7(2nd Electric), Line 9 (3rd Electric), and one tail down to the Stage floor, Upstage Right.

Front of House Transfer

None currently available.

Front of House Positions

Control Booth

19'-5" above Stage, 67'-1 $\frac{3}{4}$ " from Pit Line
70'-1" throw at 13°

Balcony Rail

10'-4 $\frac{3}{4}$ " above Stage, 41'-8 $\frac{1}{4}$ " from Pit Line
43'-6" throw at 10°

2nd Cove

25'-6" above Stage, 25'-4 $\frac{1}{4}$ " from Pit Line
36'-0" throw at 40°

1st Cove

25'-6" above Stage, 9'-3 $\frac{1}{4}$ " from Pit Line
27'-5" throw at 65°

Equipment Inventory

All instruments equipped NEMA 5-15P (Edison style) plugs, color frame, C-clamp and safety cable

Front of House Instruments

NOTE: Not designated exclusively for FOH use, may be used onstage.

- (16) ETC Source 4 26° ERS; 575W HPL lamp, 6 $\frac{1}{4}$ " color frame (**8 available for Specials**)
- (24) ETC Source 4 36° ERS; 575W HPL lamp, 6 $\frac{1}{4}$ " color frame (**8 available for Specials**)
- (4) ETC Source 4 19° ERS; 575W HPL lamp, 6 $\frac{1}{4}$ " color frame (**2 available for Specials**)
- (4) ETC Source 4 ParNel; 575W HPL lamp, 7 $\frac{1}{2}$ " color frame
- (4) ETC Source 4 Zoom 25-50° ERS; 575W HPL lamp, 7 $\frac{1}{2}$ " color frame

Stage Instruments

- (8) ETC ColorSource LED 26° ERS, EDLT lens tube, diffusion, 6 $\frac{1}{4}$ " color frame (**6 available for Specials**)
- (4) ETC ColorSource LED 36° ERS, EDLT lens tube, diffusion, 6 $\frac{1}{4}$ " color frame
- (12) ETC ColorSource LED 50° ERS, EDLT lens tube, diffusion, 6 $\frac{1}{4}$ " color frame
- (16) ETC ColorSource PAR, 7 $\frac{1}{2}$ " color frame (**7 available for Specials**)
(each have interchangeable diffusion lenses – medium oval and medium round)
- (24) ETC Source 4 PAR; 575W HPL lamp, 7 $\frac{1}{2}$ " color frame (**20 available for Specials**)
(each have inter-changeable lenses – VN5P, NSP, MFL, WFL)
- (2) ETC Source 4 ParNel; 575W HPL lamp, 7 $\frac{1}{2}$ " color frame (**2 available for Specials**)
- (6) L&E 6' Strip Lights; 12 lamp/3 circuit, 300W R40 lamps, 5 $\frac{1}{2}$ " x 6" color frame (**3 available for Specials**)

Follow Spots

- (2) Lycian Midget 2K Follow Spots

2000W CYX lamp, equipped with NEMA 5-20P (Edison style) plugs, located in Control Booth

NOTE: The windows in the Control Booth are actually two (2) windows, 4'-8" W x 3'-4" H. One (1) of these windows is fixed, containing two (2) panes of glass, 2'-3" W x 3'-4" H. The other window contains one (1) fixed pane, 2'-3" W x 3'-4" H and two (2) sliding panes, 1'-2" W x 3'-4" H. Only one (1) pane may be open at a time. Currently, the open pane is directly in front of the Control Console. The Follow Spots must be shot through the other 4'-8" W x 3'-4" H fixed window.

NOTE: Please note on the Technical Information Sheet whether or not personnel are needed to run the Follow Spots for your performance.

Special Effects

Fog Machines: none currently available. Rental units may be available, given prior notice.

- (1) MBT Monster Strobe ST7500
750W strobe lamp, variable speed
- (1) Le Maitre Pyroflash 6-way controller
controlled via 3-pin XLR cables
- (8) Pyroflash cartridge pods (2-pin)
controlled via 3-pin XLR cables, 3-pin Bulgin connectors, terminals
- (4) Pyroflash angled cartridge pods (2-pin)
controlled via 3-pin Bulgin connectors

NOTE: Visiting companies must provide their own 2-pin cartridges

- (1) Theatre Effects #MG02 Double Shooting Flash Gun with Flash Cotton and Flash Paper

Hardware

- (1) ETC Source 4 10° ERS Lens Tube
- (4) ETC Source 4 36° ERS Lens Tubes
- (4) ETC Source 4 50° EDLT ERS Lens Tubes
- (6) City Theatrical 7½" barn doors for ETC Source 4 PAR and ParNel
- (2) GAM Film/FX gobo film rotator
 - variable speed, DMX-controllable
- (2) GAM 4/Rain Film/FX reels
- (2) GAM 5/Snow Film/FX reels
- (3) GAM size A pattern holder
- (20) GAM size B pattern holders
- Assortment Roscolux color media (gel)
 - mostly 6¼", 7½", strip light cuts
- Assorted GAM/Rosco gobos

Cable

- Cube taps
- (6) NEMA L5-20 to NEMA 5-15 cables in both configurations
 - (Twist-Lok female to Edison style male, Edison style female to Twist-Lok male)
- (6) NEMA 5-15 to Stage Pin cables in both configurations
 - (Stage Pin female to Edison style male, Edison style female to Stage Pin male)
- assorted lengths of service cables with NEMA 5-15 connectors (standard extension cords) are available.
- DMX cable – assorted lengths of 3-pin and 5-pin XLR cable
- 3-pin to 5-pin XLR adapters in both configurations
 - (3-pin female to 5-pin male, 5-pin female to 3-pin male)

Drawings/Paperwork

REFER TO CAPITOL THEATRE REP PLOT – LIGHTING – LIGHTING AREAS, PAGE 24

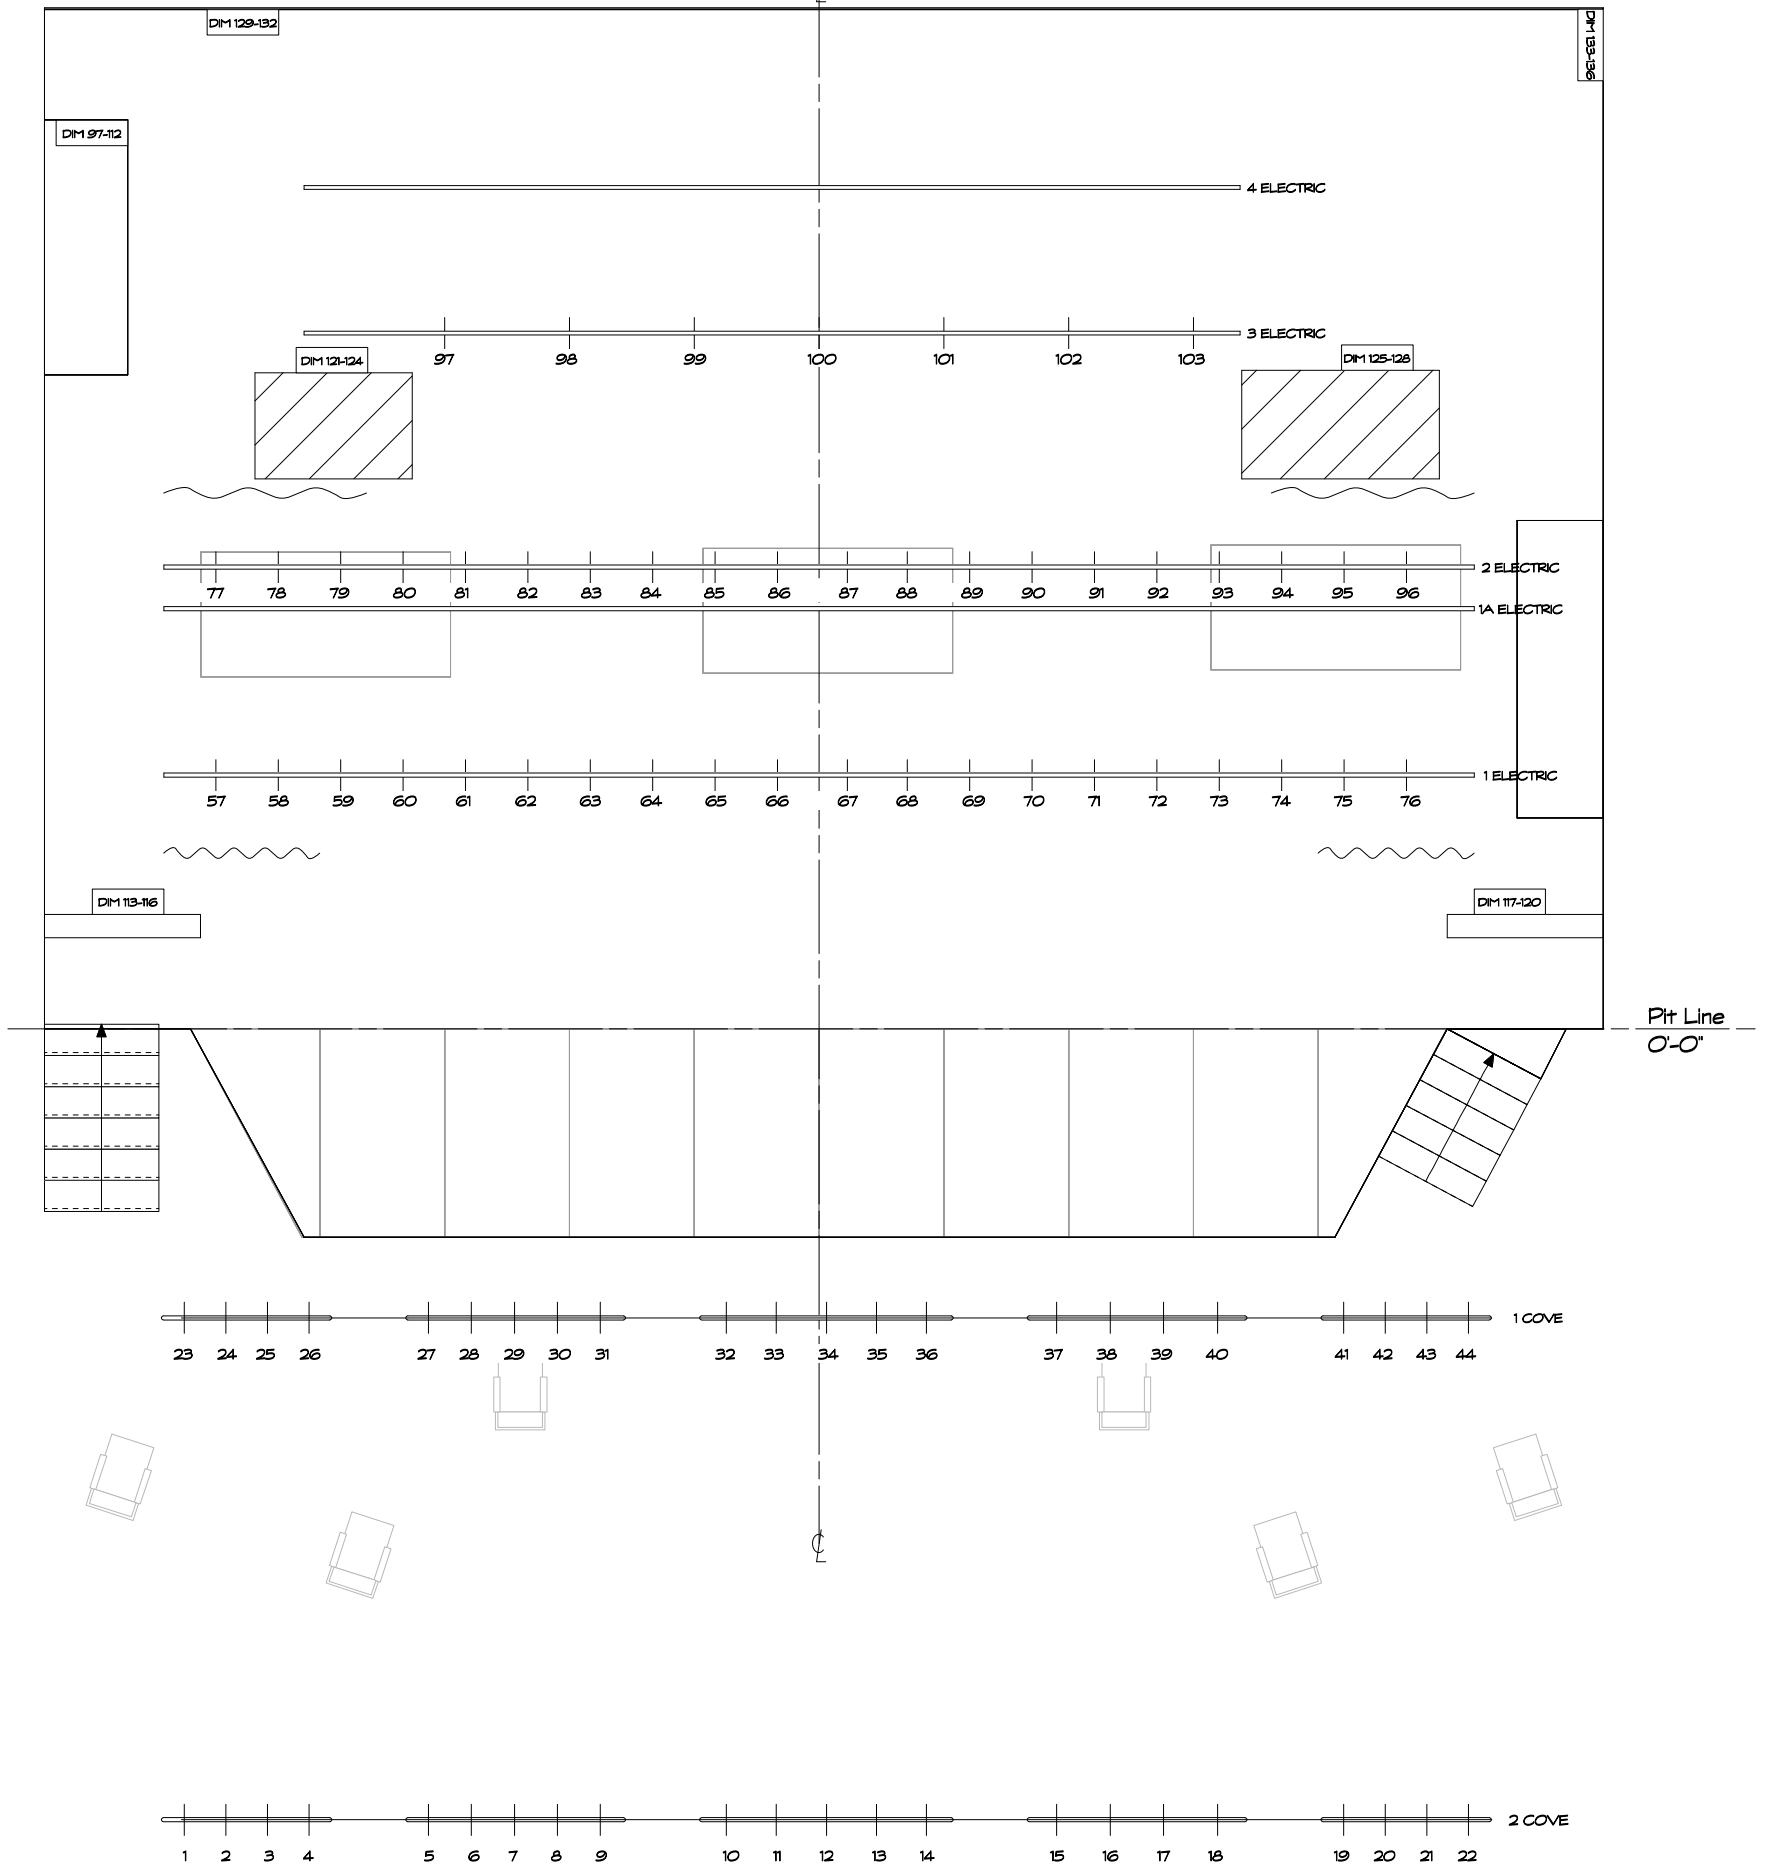

NOTE: The size of the Lighting Areas noted on this drawing may be considered approximate. They will be shuttered off the Proscenium Arch, edge of the Stage, etc., but the rest of the pool will be left open and unshuttered. All ellipsoidal spotlights will have diffusion – most commonly Roscolux 119 (Light Hamburg Frost). If your theater needs a smaller, more defined pool in a specific Lighting Area, you may consider using a special. Contact the Technical Director with any questions or concerns you may have.

(dedicated for AKG CK 47 Hanging Microphones mounted on 1st Electric)

Control Location

Control Booth located at the rear of the Balcony (Balcony Left)

Control Consoles

- (1) Allen & Heath QU-32 Digital Mixing Console
 - Located in Sound Booth
 - 32+3 (mono + stereo channels)
 - 4 stereo groups
 - 4 mono aux sends
 - 3 stereo aux sends
 - 4 FX send/returns
 - 2 stereo matrix
 - 4 DCAs
 - 10 programmable soft keys
 - Storable scenes
- (1) Allen & Heath ML3000 Mixing Console
 - Located in Theatre B
 - Auxiliary/backup console
 - 28+6 (mono + dual stereo channels)
 - 8 VCAs
 - 8 mute groups
 - LCR sub-groups
- (1) Mackie CFX-16 Mixing Console
 - Primarily for touring applications
 - Auxiliary/backup console
 - 12+2 (mono + stereo channels)
 - 4 mono sub groups
 - Built-in effects

Hearing Assistance System

- (16) Listen LT-500 FM receivers with Listen LA-164 single ear speakers
 - Available for checkout in the Concession Area. Drivers license or credit card required.

Hearing Induction Loop, designed for use with hearing aids outfitted with T-coil

- (4) Comfort Audio CD0550 T-coil receivers with headphones
 - Available for checkout in the Concession Area. Drivers license or credit card required.

Monitoring/Paging System

NOTE: Entire Capitol Theatre facility is divided into two (4) primary zones (FOH, Backstage) with multiple speakers located in each zone. Typically, each room has its own independent volume control. The signal level to each zone is controlled from the Mixing Console in the Control Booth. It is possible to set up a microphone, from any position on the Stage, Backstage or Control Booths via microphone jacks and cables for paging any zone with this system.

Stage Monitors

Stage monitor system available. Jacks for two (2) passive, mono auxiliary speaker sends available in various locations on Stage (see Sound System Layout above). Two (2) additional mono auxiliary sends are available by request. The Mixing Console can accommodate a total of four (4) mono and three (3) stereo auxiliary sends. Aux Sends are currently dedicated as follows:

- | | |
|---------------------------------|---|
| Aux 1 (mono) – Monitor 1 | Aux 5-6 (stereo) – AVAILABLE |
| Aux 2 (mono) – Monitor 2 | Aux 7-8 (stereo) – Orchestra Pit Monitor |
| Aux 3 (mono) – AVAILABLE | Aux 9-10 (stereo) – Subwoofers |
| Aux 4 (mono) – AVAILABLE | |

House Microphone

Available by request

Amplifier Rack

Located in Light/Sound Equipment Room directly behind Control Booth

Production Communications

Telex Audiocom Intercom System

- (1) PS-2001L two (2) channel power station
- (5) Telex PH-1 wired belt packs with headsets

Locations anywhere onstage, backstage or in Control Booths are available via microphone jacks and cables.
See Sound System Layout for positions.

Equipment Inventory

Microphones

Stage Microphones

- (3) AKG HM-1000 Hanging Module; (3) AKG CK 47 Hanging Microphone
hyper-cardioid pattern (mounted on 1st Electric, approximately 10'-9" above Stage deck)
- (3) Audio Technica AT 4073a Shotgun Microphone
line+gradient capacitor mics; hyper-cardioid directional pattern (floor stand mounted, removable)
- (2) Shure SM-58 microphones
- (1) Shure SM-57 microphone

Wireless Microphones

- (12) Shure QLX Wireless systems
H50 bandwidth (534 to 598 MHz)
- (12) Shure BLX Wireless systems
J10 bandwidth (584 to 608 MHz)
- (2) Shure UA874US Directional Antennas (470-698 MHz)
- (4) Shure QLX-D2 SM-58 wireless handheld microphones
- (8) Countryman B6 omnidirectional lavalier microphones, tan
- (3) Countryman B6 omnidirectional lavalier microphones, black
- (1) Countryman B6 omnidirectional lavalier microphones, cocoa
- Assorted TA4F to ¼" instrument cables

Playback

- (1) Macbook Pro with QLab 4.3 (available with prior arrangement)
- (1) CD Player
- (2) 1/8" to 1/4" stereo Y cables
- (2) RCA to ¼" stereo cables

Mixing

- (1) Allen & Heath QU-32 Digital Mixing Console
 - Located in Sound Booth
 - 32+3 (mono + stereo channels)
 - 4 stereo groups
 - 4 mono aux sends
 - 3 stereo aux sends
 - 4 FX send/returns
 - 2 stereo matrix
 - 4 DCAs
 - 10 programmable soft keys
 - Storable scenes
- (1) Allen & Heath ML3000 Mixing Console
 - Located in Theatre B
 - Auxiliary/backup console
 - 28+6 (mono + dual stereo channels)
 - 8 VCAs
 - 8 mute groups
 - LCR sub-groups
- (1) Mackie CFX-16 Mixing Console
 - Primarily for touring applications
 - Auxiliary/backup console
 - 12+2 (mono + stereo channels)
 - 4 mono sub groups
 - Built-in effects

Processing

- QU-32 on-board processing
 - Parametric EQ
 - Graphic EQ
 - Compressor/Limiters
 - Gates
 - Effects
 - Available on all input/output channels
- (1) Sabine Graphi-Q 3102 Equalizer
 - 2-channel, 12 built-in feedback filters per channel (left and right mains), internal compressor/limiter
- (1) Sabine Grapi-Q 3102S Equalizer
 - 1-channel, 12 built-in feedback filters per channel (center main, delays), internal compressor/limiter
- (1) ART HQ-231 Equalizer
 - 2-channel, 31-band with feedback detection circuit (monitors on Aux 1, Aux 2)
- (1) Peavey V4X Mark III Electronic Crossover (subwoofers)
- (1) Lexicon MPX-110 Effects Processing Unit
 - stereo, dual-channel, 24-bit internal processing, analog-digital/digital-analog conversion

Amplifiers

- (1) QSC CX-902
 - 2-channel, 900W/4 Ω per channel (left/right channels)
- (1) QSC CX-404
 - 4-channel, 250W/8 Ω per channel (delays, monitors)
- (1) QSC CX-302
 - 2-channel, 325W/4 Ω per channel (center channel)
- (1) QSC CX-204V
 - 4-channel, 300W/70.7V per channel (zones, Orchestra Pit monitor)
- (1) QSC USA 850
 - 2-channel 425W/4 Ω per channel (subwoofers)

Speakers

Fixed

- (3) Mackie Industrial PA-281 Loudspeakers (Mains)
- (7) Mackie Industrial MR4 Loudspeakers (Delays)
- (6) RDL D-SP-A 2W Decora Style Speakers (Front fills)
- (2) JBL 4645 18" Subwoofers
- (12) Yorkville C120/70 Loudspeakers (Zones)
- (14) Yorkville WM5T Loudspeakers (Zones)

Portable

- (4) QSC K10.2
 - 2 KW, 90° active powered speaker
 - (2) 1/4" / XLR inputs with separate gain controls (Channels A/B)
 - (1) 1/8" stereo input with separate gain control (Channel C)
 - (2) XLR outputs, Channels A/B
 - (1) XLR output, Channels A/B/C
- (2) QSC K8.2
 - 2 KW, 105° active powered speaker
 - (2) 1/4" / XLR inputs with separate gain controls (Channels A/B)
 - (1) 1/8" stereo input with separate gain control (Channel C)
 - (2) XLR outputs, Channels A/B
 - (1) XLR output, Channels A/B/C
- (2) Yorkville Y-112M Monitor Wedge Speakers
 - 150W / 8Ω, passive, parallel inputs
- (2) Electro-Voice Sx-300 Loudspeakers
 - 300W / 8Ω, passive, parallel inputs

Hearing Assistance System

NOTE: See description on page 16.

- (1) Listen LT-800 Hearing Assistance FM Transmitter
- (1) Listen LA-122 Hearing Assistance Universal Antenna
- (16) LR-500 Hearing Assistance FM Receiver
- (16) Listen LA-164 Hearing Assistance Single Ear Speaker
- (2) Listen LA-321 8-unit chargers

Hearing Induction Loop, designed for use with hearing aids outfitted with T-coil

- (4) Comfort Audio CD0550 T-coil receivers with headphones
- (4) Comfort Audio CD0650 charging stations

- (1) Alesis Studio 12-R Mixer
 - Controls mix between FM and Hearing Induction Loop Hearing Assistance systems
 - Controls mix between live sound and cinema sound applications

Communication

- (1) Telex PS-2001L 2-channel Headset Power Station
- (5) Telex PH-1 Headset

Power Distribution

- (1) ETA PD-8L Front-of-House Rack Power Relay
- (1) Middle Atlantic USC-6R Sound System Power Relay

Cable, Accessories

- (2) Allen & Heath AB-168 Digital stage boxes (16 mic/line in, 8 line out) with D-Snake
- (1) 100'-0" Rapco Snake (24-channel, 4-return)
- (3) Rapco DB-100 passive mono direct box
- (1) Horizon STL-1 passive stereo direct box
- (5) Rapco DBBLOX passive direct boxes
- (1) Rapco ISOBLOX 1;1 600Ω inline isolation transformer

Various 3-pin XLR LO-Z microphone, 1/4" HI-Z instrument, RCA, 1/4" Speaker cables, 3-pin XLR to TRS LO-Z adapters (both ways), 3-pin XLR turnarounds (both ways), and various other adapters are available

Microphone Stands

Assorted mics stands (tripod, round base), with or without booms; and microphone clips are available. Please notify ACT in advance of specific needs.

Speaker Stands

(4) Yorkville telescoping tripod speaker stands (black)

FILM, VIDEO, PROJECTION EQUIPMENT

Power

120V, 100A

System Layout

System is designed primarily to show film presentations in DCP format in 7.1 surround sound
System is also designed for basic display of content from the following video sources

- Computer with HDMI output
- Blu-Ray player with HDMI output
- IP Camera located in back of Balcony

Video sources may be patched into the system from the following locations

- Stage
- Sound Booth, located in back of the Balcony
- Control Booth, located behind the Balcony

Content from video sources, depending on the location, may be routed to the following locations

- Main Theatre Projector, located in Control Booth behind the Balcony
- HD TVs, located in Lobby and Young People's Theatre Classroom

Content from video sources is generally carried via HDMI over CAT-5e cables and HDMI extenders
Direct connection via HDMI cable to the Projector can be made from either the Control Booth or Sound Booth.

Projector

- (1) Barco DP2K-23B Digital DLP projector
 - 1998 x 1080 native resolution (flat)
 - 2048 x 848 native resolution (scope)
 - Plays DCP films at native resolutions
- (1) HDMI input, accommodates up to 1080p resolution

Screen

- (1) 28'-0" W x 20'-0" H Front Projection Screen
- REFER TO CAPITOL THEATRE RIGGING PLOT, PAGE 17

Sound System

Playback

- Blu-Ray Player
- Macbook Pro laptop

Mixing

N/A

Processing

- IMS 2000 Digital Cinema Processor
 - Web-based user interface
- (1) Dolby CP750 Digital Audio Processor
- (1) Odyssey VF Series Electronic Crossover
- (1) Odyssey TM-1 6-Channel Sound Monitor

Amplifiers

- (1) QSC Model 1400
2-channel, 300W/4Ω per channel (center lo, center high channels)
- (1) QSC RMX-2450
2-channel, 650W/4Ω per channel (left & right channels)
- (1) QSC Model 1400
2-channel, 300W/4Ω per channel (surround left & surround right channels)
- (1) QSC Model 1400
2-channel, 300W/4Ω per channel (surround back left & surround back right channels, balcony)
- (1) QSC RMX-850
2-channel, 270W/4Ω per channel (surround back left & surround back right channels, main floor)
- (1) QSC USA 850
2-channel 425W/4Ω per channel (subwoofers)

Speakers

Fixed

- (4) JBL 8340A (surround left & surround right channels)
- (2) JBL 8340A (surround back left & surround back right channels)
- (4) JBL Control 25 (surround back left & surround back right channels)
- (2) JBL 4645 18" Subwoofers

Portable

- (1) JBL 4639 / 4632-M/F 3-way speaker array (center channel)
- (2) JBL 4722 N-HF 2-way speaker array (left & right channels)

Hearing / Visual Assistance Systems

- (1) Listen LT-800 Hearing Assistance FM Transmitter
- (1) Listen LA-122 Hearing Assistance Universal Antenna
- (16) LR-500 Hearing Assistance FM Receiver
- (16) Listen LA-164 Hearing Assistance Single Ear Speaker
- (2) Listen LA-321 8-unit chargers

Hearing Induction Loop, designed for use with hearing aids outfitted with T-coil

- (4) Comfort Audio CD0550 T-coil receivers with headphones
- (4) Comfort Audio CD0650 charging stations

- (1) Alesis Studio 12-R Mixer

Controls mix between FM and Hearing Induction Loop Hearing Assistance systems
Controls mix between live sound and cinema sound applications

- (2) USL, Inc. IRC-28 Series HIVI Infrared Closed-Caption System Emitter/Modulator
- (2) USL, Inc. CCR-100 HIVI Infrared Closed-Caption Receiver

- (2) QSC IRH-280i Assistive Listening System for visually impaired

Control Location

Projection Booth located behind the Balcony

PROPS

Orchestra Pit

See description on page 8.

Music

Chairs

Several chairs, folding and non-folding, various styles

Music Stands

(8) Wenger music stands, gray
(17) Wenger music stands, black

Stand Lights

None currently available.

Conductor's Podium

None currently available.

Orchestra Shell

None currently available.

Platforms

(12) 4'-0" W x 8'-0" L platforms constructed of 2" x 4" lumber frames and ¾" plywood
(4) 4'-0" W x 4'-0" L platforms constructed of 2" x 4" lumber frames and ¾" plywood
Other platforms of various sizes, constructed of 2" x 4" lumber frames and ¾" plywood

Dance Floor

None currently available.

Lecterns

(1) Lectern 1'-7" wide x 2'-1" deep x 4'-0" high, includes one (1) XLR gooseneck, timer and light

WARDROBE

Dressing Rooms

Two (2) Dressing Rooms equipped with two (2) sinks and lighted mirrors. They are located in the northeast wing of the facility, beyond the Stage Right Wing and Scene Shop. They are adjacent to the Makeup/Wardrobe and Green Rooms. There is one (1) 9" step up into the Scene Shop, which is on the same level as the Stage. Each is equipped with its own accessible restroom with two (2) stools and/or urinals and a shower.

Wardrobe Area

Makeup/Wardrobe Room located adjacent to Green Room and Dressing Rooms. It is located in the northeast wing of the facility, beyond the Stage Right Wing and Scene Shop. There is one (1) 9" step up into the Scene Shop, which is on the same level as the Stage. The Costume Shop is located in the Basement via steps in Scene Shop. The Costume Shop is equipped with sewing machines, various sewing equipment, irons, ironing boards and clothes steamer.

Green Room

The Green Room is located in the northeast wing of the facility. It is beyond the Stage Right Wing and Scene Shop. It is adjacent to the Dressing and Makeup/Wardrobe Rooms. There is one (1) 9" step up into the Scene Shop, which is on the same level as the Stage. It is equipped with refrigerator, stove, dishwasher and microwave.

Sewing Machines

- (2) Brother XL-3010 sewing machines
- (1) Kenmore Model 158.19411 sewing machine
- (1) Singer Millennium Series serger sewing machine
- (1) New Home Model 203 serger sewing machine
- (1) Protégé BabyLock serger sewing machine

Irons/Ironing Boards

- (2) Irons and ironing boards are available

Steamers

- (1) Portable clothes steamer is available

Washers/Dryers

Clothes washer and dryer (for costume cleaning only) located in Makeup/Wardrobe Room

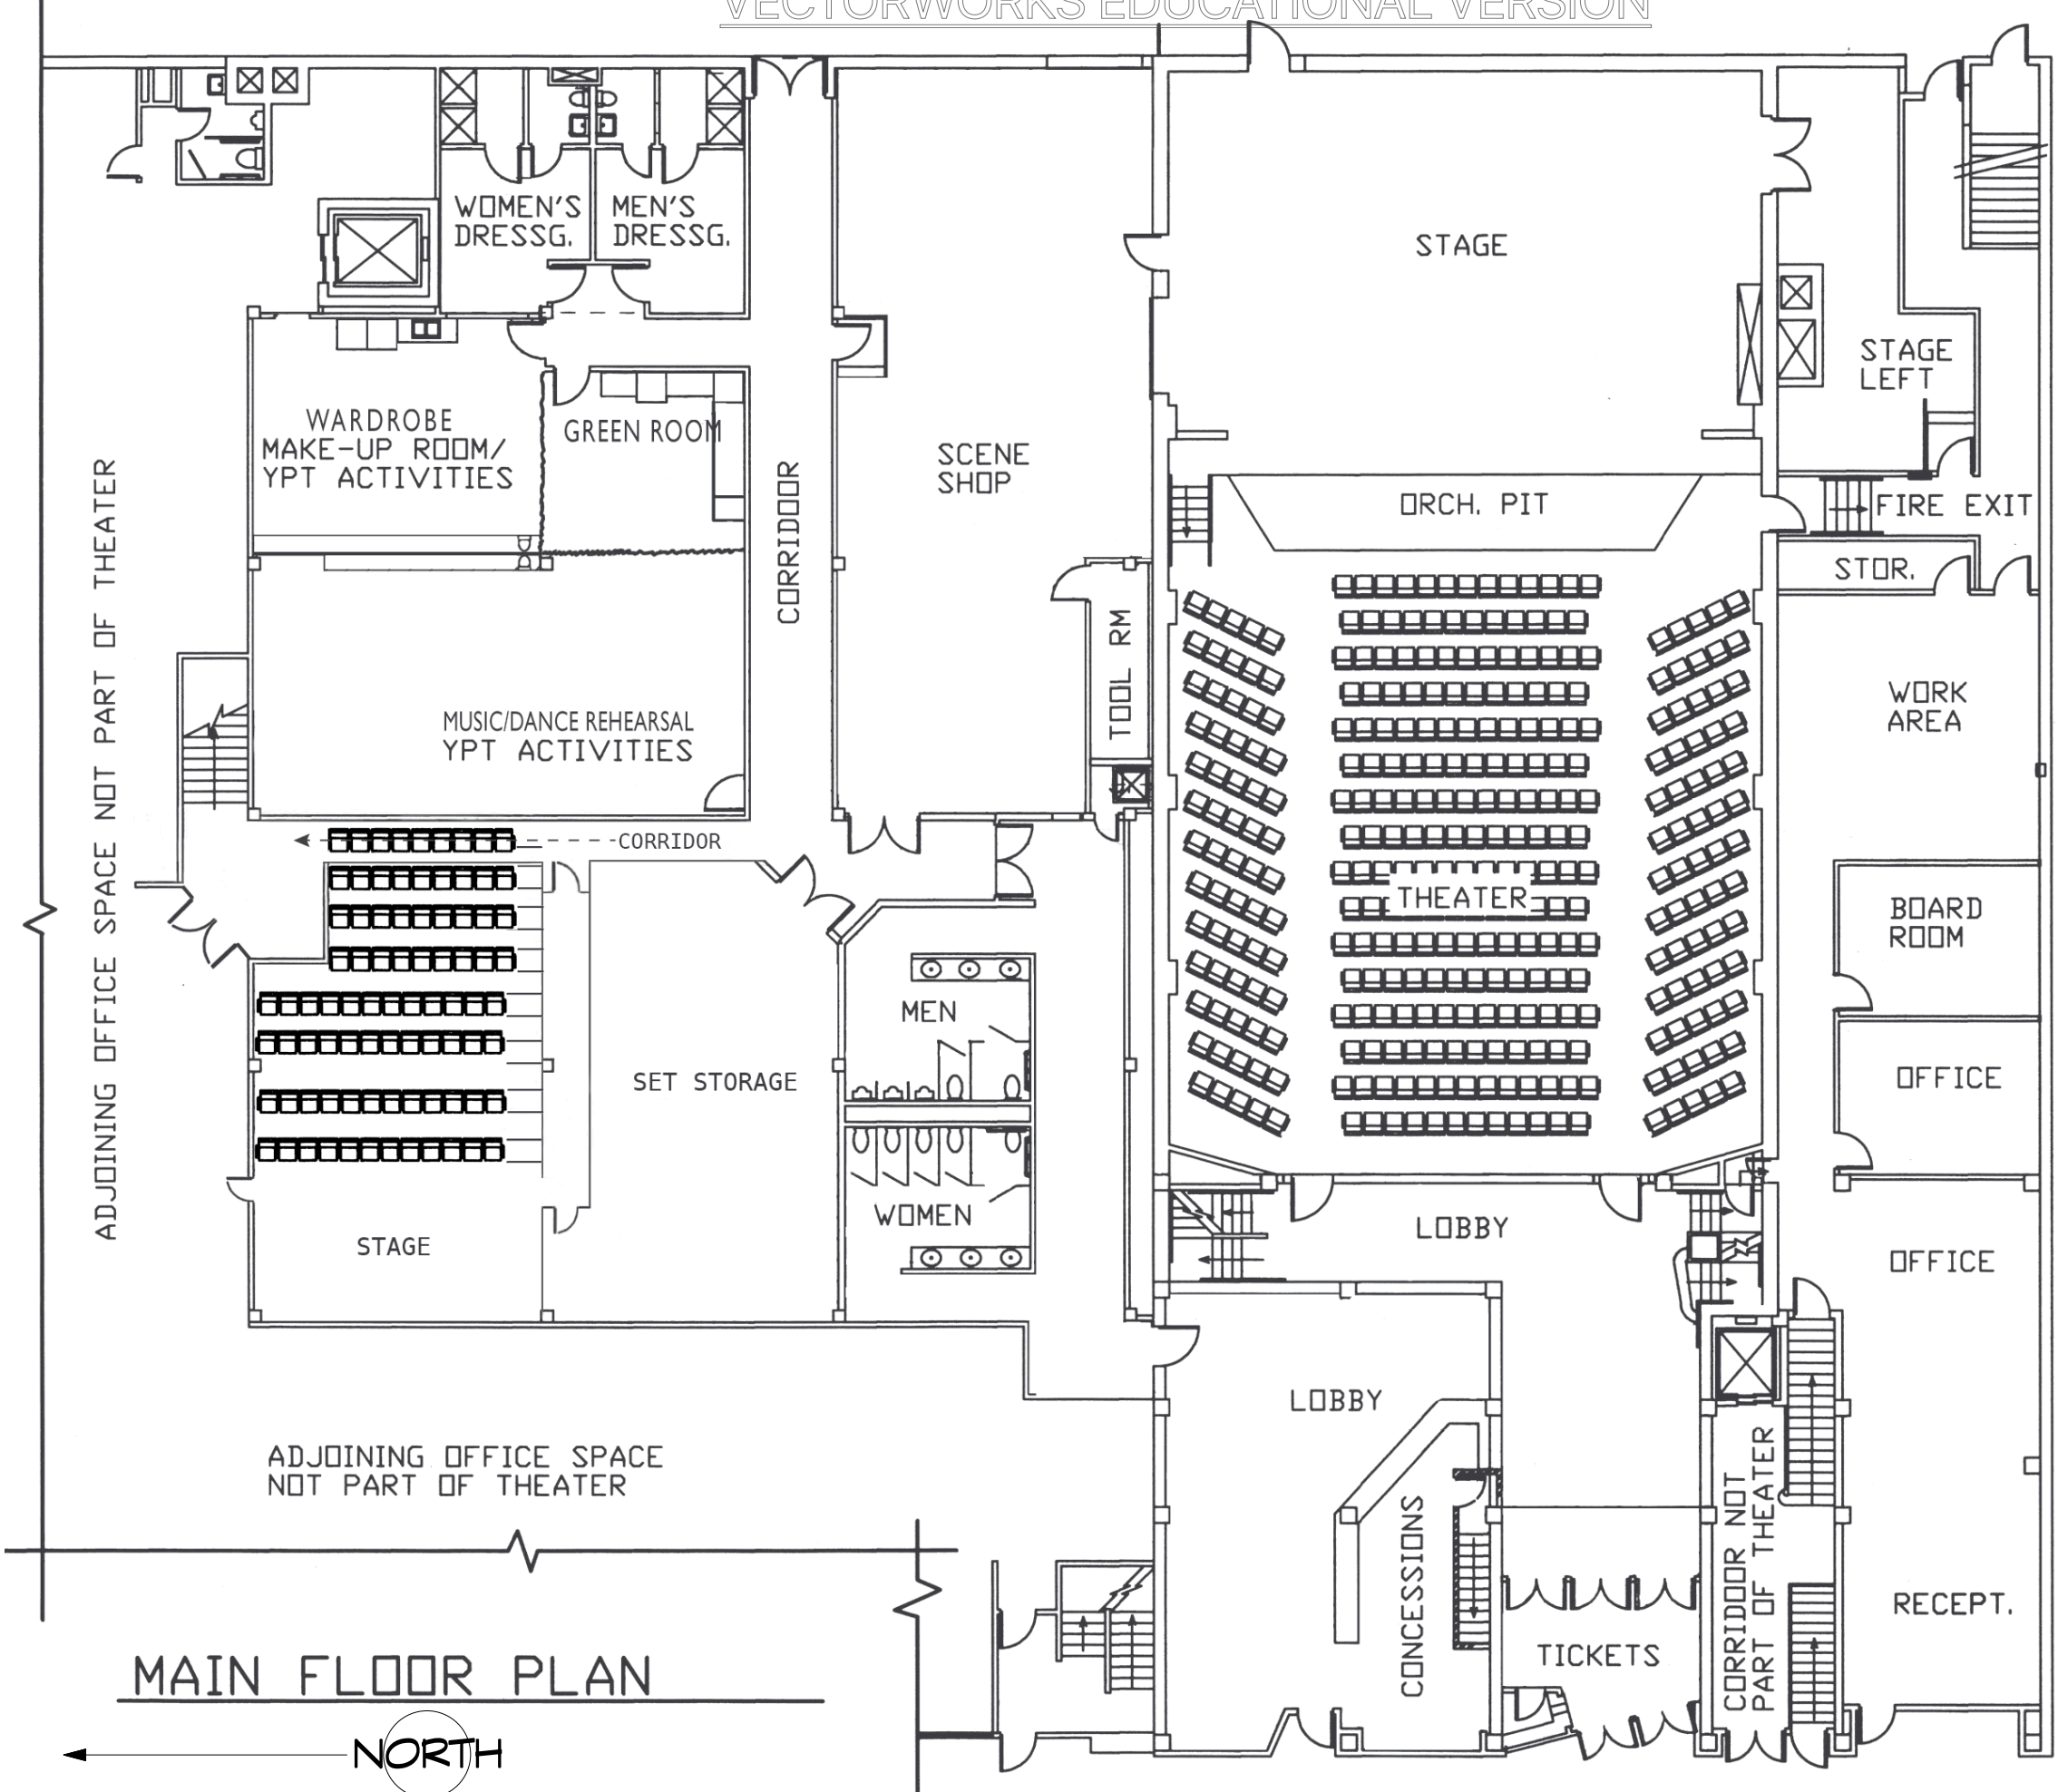

Racks/Hangers

Various rolling garment racks are available

Quick-Change Booths

None currently available. The Scene Shop, immediately adjacent to the Stage Right Wing, is often used as a quick-change area, as is Light/Sound Equipment Room, immediately adjacent to the Stage Left wing. 4'-0" wide x 8'-0" high flats (¼" plywood over 1" x 6" OR 2" x 4" frames) have been set up as quick-change booths if necessary. Arrangements to construct quick-change booths should be made with ACT staff.
